

KATIE NHAN LE

Product Designer (UI/UX), Creative Technologist, Systems Thinker

408.621.2679 | katienhanle@gmail.com | San Jose, CA | [linkedin.com/in/katienhanle/](https://www.linkedin.com/in/katienhanle/) | <https://katienhanle.vercel.app/>

PROFILE

Multidisciplinary product designer and creative technologist with experience building AI-assisted, data-driven, and interactive digital products from concept to launch. Combines strong systems thinking, user-centered research, and rapid prototyping skills to design end-to-end experiences that improve usability, engagement, and efficiency. Passionate about designing for impact and crafting tools that empower people, especially in complex, high-stakes environments.

SKILLS

- UI/UX design
- Wire framing
- Prototyping
- Usability testing and user research
- Figma
- Next.js
- React
- GitHub
- Product Strategy
- Cross-functional Communication
- Adobe Photoshop

CAREER EXPERIENCES

Independent Game & Interactive Builder Self-Employed | October 2025 - Present

- Designed and deployed web-based interactive experiences using **Next.js, React, and Framer Motion**, integrating AI tools for faster iteration.
- Created a **Demon Slayer-inspired personality quiz** that reached **1,000+ user submissions within 24 hours**, demonstrating high engagement through compelling UX and analytics integration.
- Experimented with procedural avatar systems and dynamic storytelling to enhance player retention and accessibility.
- Applied data-driven iteration and real-time analytics to refine engagement loops and user satisfaction.

Freelance UI/UX Designer Self-Employed | June 2022 - Present

- Led full design lifecycles across multiple digital products—research, wireframing, prototyping, and high-fidelity execution.
- Designed and built **StepSync**, a verified dancer portfolio and audition-tracking platform improving user organization and visibility.
- Developed cohesive design systems ensuring scalability, consistency, and accessibility across product screens.
- Partnered with engineers to align technical feasibility with usability and visual design goals.
- Presented design rationale, research findings, and iterative updates to clients and collaborators.

Content Creator TikTok | July 2021 - Present

- Built and managed a combined digital following of **1.9M+** users across TikTok and Instagram, producing viral campaigns and branded experiences.
- Directed storytelling and visual strategy for high-profile partnerships with **Live Nation, KCON LA, and Hapa Kristin**, blending design, narrative, and marketing psychology.
- Used analytics to optimize audience experience and engagement—a skill transferable to data-informed design.

Independent Game Developer Roblox Studio | Jan 2016 - March 2017

- Designed, scripted, and launched a solo-built game that achieved **600,000+ plays**, demonstrating early experience in full-stack product creation.
- Created complete gameplay and UI systems using Roblox Lua, managing all design, coding, and release processes.
- Developed a deep understanding of user feedback, system balance, and scalability in digital environments.

EDUCATION & CERTIFICATIONS

Bachelor of Science, Cognitive Science
(Design and Interaction)
University of California, San Diego
2025

Associate of Science, Psychology
De Anza College
2023

ACHIEVEMENTS

- Reached over **100M content interactions** across platforms through strategic storytelling and visual branding.
- Recognized for developing end-to-end, AI-augmented prototypes that merge design and code in production-ready workflows.
- Built multiple independently shipped products demonstrating end-to-end ownership and user-centered innovation.

PROJECTS & DEVELOPMENT

<i>Next.js & React Development (Portfolio Project)</i>	2023-2025
<i>Interactive case studies showcasing AI-assisted workflows and UI/UX research methods.</i>	
<i>StepSync Platform</i>	2025
<i>Dancer-focused platform prototype with design system and verified identity infrastructure.</i>
