

KATIE NHAN LE

Creative Technologist · Game Builder · UI/UX Designer

408.621.2679 | katienhanle@gmail.com | San Jose, CA | [linkedin.com/in/katienhanle/](https://www.linkedin.com/in/katienhanle/) | portfolio-katie-nhan-les-projects.vercel.app/

PROFILE

Creative technologist and UI/UX designer blending design systems, gameplay feel, and AI-assisted development. Experienced in building interactive digital products and shipping solo prototypes from concept to launch. Adept at using AI tools to accelerate iteration, refine user feedback loops, and craft polished player experiences.

SKILLS

- UI/UX design
- Wire framing
- Prototyping
- Usability testing and user research
- Figma
- Next.js
- React
- GitHub
- Social media strategy
- Brand Growth
- Video Editing
- Content Creation

CAREER EXPERIENCES

Independent Game & Interactive Builder

Self-Employed | October 2025 - Present

- Built and deployed playable web experiences using Next.js, React, and Framer Motion, including a Demon Slayer-inspired personality quiz that reached 1,000+ submissions in the first 24 hours.
- Designed and programmed end-to-end gameplay loops, UI systems, and pixel-art assets.
- Integrated AI-assisted workflows (code generation, text synthesis, and analytics) for rapid iteration.
- Experimented with procedural avatar customization and dynamic storytelling to enhance replay-ability.
- Leads end-to-end product design cycles, from user research and competitive analysis to wire-framing, high-fidelity prototyping, and usability testing.
- Managed concept, design, build, and public launch solo.

Freelance UI/UX Designer

Self-Employed | June 2022 - Present

- Designs and prototypes responsive digital experiences in Figma, applying principles of usability, accessibility, and human-centered design to enhance trust and engagement.
- Leads end-to-end product design cycles, from user research and competitive analysis to wire-framing, high-fidelity prototyping, and usability testing.
- Developed multiple conceptual/client-based projects, including StepSync, a dancer portfolio and audition tracking platform.
- Delivers polished presentations and walkthroughs of design outcomes, articulating design rationale and UX strategy.

Content Creator

Self-Employed | July 2021 - Present

- Built a combined audience of 1.4M followers on TikTok and 500K followers on Instagram, with over 100M total likes across platforms.
- Produced high-quality dance and lifestyle content that consistently trends across social media, leveraging editing, choreography, and storytelling to engage global audiences.
- Partnered with major **brands** such as **Live Nation**, **KCON LA**, and **Hapa Kristin** to deliver sponsored campaigns and event coverage.
- Collaborated with renowned artists including Jackson Wang, P1Harmony, and MAX, creating promotional content.

Independent Game Developer

Roblox Studio | Jan 2016 - March 2017

- Designed, scripted, and launched a solo-built Roblox game that reached nearly 600,000 plays and sustained an active player community.
- Developed complete gameplay systems using Roblox Lua scripting.
- Managed every aspect of production (concept, design, coding, QA, and live updates), gaining early experience in rapid prototyping and shipping commercially successful content.

EDUCATION & CERTIFICATIONS

*Bachelor of Science, Cognitive Science
(Design and Interaction)*
University of California, San Diego
2025

Associate of Science, Psychology
De Anza College
2023
